Your
EVERYDAY
MAKE-UP
destination

Beauty is a journey with no end.

So why should you take Bell with you?

Beauty is intangible.

Not only because trends are constantly changing, but also because it means something else to everyone. This otherness and **freedom** of expression, also through makeup, is what makes the Bell brand strive to always meet even the most individual **needs**. Because every woman takes us on a different **journey** in the search of her definition of beauty and we have been by their sides for three decades, accompanying three generations of women (on their **adventure**...)

*Since the time
of our first iconic lipstick.*

in these travels we have met on many levels, creating a **wide range of products** that meet the **highest quality standards**, but also, and perhaps above all, give joy in **discovering new possibilities** of make-up art. Shapes, colors, textures, beautifully designed packaging and safety of use are the hallmarks of our collections that we are constantly working on to **meet the needs of even the most demanding women.**

For years we have enriched our offer with products that are **environmentally friendly** and healthier for the skin. Already **75% of our cosmetics are vegan, 95% are free of harmful mineral oils, 100% are free of lactose and almost as much free of gluten**, because what is important to our consumers is important to us.

MINERAL OIL FREE

VEGAN FRIENDLY

GLUTEN FREE

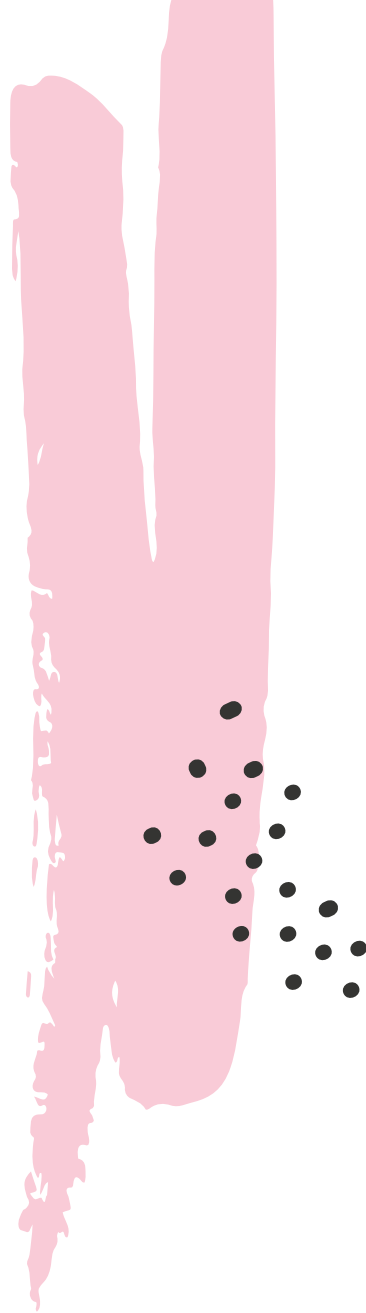

LACTOSE FREE

To get to this place on our journey we had to learn a lot, observing the **needs and behavior** of women who are as different as skin types, mouth shapes and eye color.

That is why, without forgetting our **tradition and the values** that underlie **Bell**, whilst developing our product offer we always try to be one step ahead. We use the **latest discoveries and technologies**, we work on durability and hypoallergenicity with a team of trusted specialists, but what we care about most is **catching up with the creativity** of our users. This creativity is the ticket on this journey. Thinking the unthinkable. Creativity is a constant adventure of creating **new connections, colors, textures, methods of application and innovative design** that are still surprising, but also those to which our consumers like to come back and permanently occupy a place in their beauty bags.

Creativity

is also the ability to ensure good value for money, so that our products can accompany every woman in her everyday life, not just on occasion.

As a brand, we continue to create better products, available already on 4 continents. We set off on this beautiful journey every day, because every day we care about women looking at themselves in the mirror, feeling more confident, boldly manifesting their image of beauty, being more creative and above all - enjoying themselves.

*Enchant with
a beautiful smile*

THE LIP OF TIME

Beauty is elusive, but a smile can be captured. Every smile starts with self-confidence. With the freedom to express your emotions. Color, shape, gloss, mat... lips can speak with more than just words. Bell is for those women who love to play with variety of colors. For those who like to experiment and those who appreciate the classics.

In pursuit of your smile, we are constantly expanding our palette and creating new recipes. We are always on time when you need to express yourself.
